

Join TRL Engineering New Zealand

Fibreglass Technician – Underground Fuel Tank Relining

Build a Career. Travel New Zealand. Work with the Industry Leader.

TRL Engineering is expanding throughout New Zealand and is seeking motivated, reliable and safety-focused **Fibreglass Technicians** to join our growing team.

If you enjoy practical hands-on work, take pride in quality workmanship and want to be part of a professional team delivering specialised petroleum engineering services across New Zealand, we want to hear from you.

About TRL Engineering

TRL Engineering is one of Australasia's leading specialists in the inspection, repair and fibreglass relining of underground petroleum storage tanks. Our teams work with major fuel companies and commercial customers, delivering high-quality engineering solutions using industry-leading products, equipment and technology.

With continued investment in new technologies, robotics and advanced engineering systems, TRL offers genuine long-term career opportunities for people wanting to build a future in a specialised industry.

The Role

Working within a robust professional team, your responsibilities will include:

- Fibreglass relining of underground fuel tanks
- Surface preparation, grinding and sanding
- Resin and fibreglass application
- Gel coat application
- Operating specialised equipment
- Confined Space Entry work
- Maintaining the highest standards of safety and quality
- Travelling throughout New Zealand to customer sites
- Assisting with site preparation and completion of engineering projects

What We're Looking For

We are seeking people who are:

- Hard working and reliable
- Physically fit
- Mechanically minded
- Able to work well within a team
- Willing to travel
- Committed to workplace safety
- Able to learn specialised fibreglass techniques
- Professional when dealing with customers

Previous fibreglass experience is highly regarded but **not essential**.

Full training will be provided to the right applicants.

Essential Requirements

- Full New Zealand Driver Licence
- Ability to pass Drug & Alcohol testing
- Ability to obtain medical clearance for Confined Space Entry
- Strong commitment to safety
- Excellent attitude and work ethic

What TRL Offers

- Excellent remuneration package
- Paid training and career development
- Long-term employment opportunities
- Modern equipment and specialised training
- Opportunity to work throughout New Zealand
- Supportive and experienced team environment
- Stable, growing international company
- Career progression into Senior Technician, Team Leader and Site Supervisor roles

Why Join TRL?

At TRL Engineering, our people are our greatest asset.

We invest heavily in our employees through training, advanced technology and career development. As our business continues expanding internationally, opportunities exist for the right people to grow into leadership positions across Australasia and beyond.

If you are looking for more than just another job and want a genuine career with one of the industry's most respected companies, we'd love to hear from you.
